ORGANISATION:

Inglewood Community Board

POSTAL ADDRESS:

20 Rewa Street, Inglewood, 4330

PHONE:

06-756 8055

The Inglewood Community Board would like to speak to their submission and have a timeslot of 15 minutes.

1. Community Park for Inglewood

The Inglewood Community Board would like to see the establishment of a Community Park which has been designed in consultation with the Inglewood Community included in the LTP 2015-2025. The Community Board support the need for Jubilee Park – Elliot Street to be upgraded with the following:

1. Upgraded skate park
2. Public toilet for park users
3. Playground

The skate park is now 30 years old and does not meet the expectations of the community. It needs to be brought up to a standard that allows users of all ages from 2 years and up.

The current playground equipment does not cater for older children and as part of the community park concept it does need to cater for all ages.

Jubilee Park has the potential to be a community park with facilities to cater for all ages and as such, is also in need of a public toilet. The Community Board request that this be budgeted in the LTP 2015-2025.

2. Windsor Walkway – Circuit Footpath

The Inglewood Community Board request planning and budgeting be undertaken to put a footpath around the unpaved section of the circuit. There are some sections that make it difficult for users of this popular walkway, as they are required to walk on the road which can be unsafe for cars and walkers. The Board requests that work be completed progressively with completion of the whole project to occur by 2025.

3. Joe Gibbs and PG Nops Reserves

Inglewood Community Board requests that the Council retain the current management of these Reserves in the short term. As per the deliberations on the last Long Term Plan, the Board request that these Reserves be included in investigations to be undertaken in conjunction with the Green Corridors Reserves Management Plan which will look at the management and any future development. The community are asking for the removal of the fence at Joe Gibbs Reserve and the development of an open space park.

The current level of service predominately involves track maintenance in the bush remnant, grazing of the open area, mowing of the front section, as well as noxious animal and pest management.

The Inglewood Community Board requests that consideration of a campervan parking area at the Joe Gibbs Reserve be included in the development of the Green Corridors Reserves Management Plan.

4. Egmont Village

The Inglewood Community Board request that consideration for planning and budgeting for a reticulated water supply and sewerage system for Egmont Village be considered.
