PART B

ITEMS FOR FINAL DETERMINATION BY THE COUNCIL

1. Junction Road Leasehold Land Sales - Ten Year Forward Work Programme

File Reference: RT-12-01-05, ECM 6202755

The matter for consideration by the Council is to endorse the proposed ten year forward work programme for Tarata Road and other roads in the former County of Inglewood and to endorse the proposed funding strategy outlined in this report.

Recommendation

That having considered all matters raised in the report:

- a. This project is included within the Draft Long Term Plan for 2015-2025, commencing in 2015/16.
- b. The forward works programme outlined in this report is endorsed.
- c. That \$1 million from the Endowment Trust Account and the interest accrued over one year is used in year one to “kick start” the forward work programme to generate some impetuosity. Thereafter the interest only will be used each year to fund maintenance and improvement work in the former County of Inglewood.

- d. A further review of the project priorities is undertaken for the 2018-28 LTP and thereafter at three yearly intervals, commensurate with the development of future Long Term Plans.

2. Outline of Process for Road Stopping and Sales Revenue Potential

File Reference: CM 08 28 01 v05, ECM 6201650

The purpose of this report is to provide background information on the stopping process for Council owned unformed legal road and the opportunities for sale revenue potential. In particular the report outlines:

1. The statutory process for stopping (ceases to be road) of unformed legal road vested in Council ownership and the methods by which road stopping and sale is instigated; and
2. The potential for the Council to proactively undertake a programme to identify, stop and sell stopped road parcels over and above stopping and sale that is instigated by way of standard application by the adjoining owner.

Recommendation

That, having considered all matters raised in the report, the following be noted.

- a) That the statutory process for road stopping (ceases to be of road status on revocation) of unformed legal road and disposal more particularly set out in this report, is carried out under the provisions of two statutes being either:
 - i. Sections 319(h), 342(1) and the Tenth Schedule of the Local Government Act 1974; or
 - ii. Section 116(1) and 117 of the Public Works Act 1981.
- b) That the ownership of all local roads as defined in Section 315 of the Local Government Act 1974, (which includes access way and service lane) are vested in an estate in fee simple (freehold) in the Council for the purpose of road pursuant to Section 316(1) of the Act.
- c) That the majority of road stoppings for sale purposes, are instigated by the adjoining land owner, excepting those that might otherwise be randomly identified or are associated directly with road acquisition and disposal, for the realignment, diversions, diminishing, widening, improvement or formation of local roads to secure ownership, upgrade road infrastructure and provide for better safety and visibility.
- d) That of the \$9M in land sales since 2006 that only \$0.65M is represented in the sale of stopped road at an average net sale price return of \$25,000, noting that the blanket aggregated road stopping and

sale of parcels of land on Messenger Terrace is a one off exception, compared to the mainstream individual parcel road stopping and sale.

- e) That the returns achieved historically from road stopping sales (principally limited to adjoining owners) provides an overall marginal fiscal economic return, weighted against applied resources and is not conducive to a programme of proactive road stopping sales, as a means of achieving any substantial net pecuniary revenue cash flows.
- f) That the statutory process for road stopping and sale under the Local Government Act 1974 (to which the Council is principally confined) can be onerous and costly and subject to objection to the Environment Court, and in recognising that adjoining owners who have free grazing use of unfenced unformed legal road in rural areas, may not wish to purchase unformed legal road parcels bisecting their property, nor cannot be forced to do so.
- g) That all applications for the stopping and sale of stopped road are scrutinised on merit, desired outcomes and economies consistent with other land sales, in particular the net revenue potential.

3. Road Naming

File Reference: ECM 6205884

The matter for consideration by the Council is the naming of new roads created as a result of subdivision and the formalisation of an existing road name.

Recommendation:

That having considered all matters raised in the report the following road and road names be approved and the Group Manager Business Performance allocate street numbers to the properties fronting these roads:

- (a) Foundry Lane
- (b) Katikara Drive
- (c) Whitaker Street East

4. NZ Petroleum & Minerals – Petroleum Exploration Block Offer 2015 Consultation

File Reference: ECM 6094360

Petroleum exploration Block Offer 2015 has been released by NZ Petroleum & Minerals (NZPM) inviting submissions from affected local authorities on matters of concern. Submissions close 9 February 2015.

Recommendation:

That having considered all matters raised in the report a submission be made in respect of the following matters detailed in the report:

- 1. That the scope of block offer submission considerations be widened to include how permit areas are constructed to reduce adverse effects on

sensitive activities identified by the Council so that community expectations are better met than by resource management tools alone.

2. That NZPM engage with immediate communities hosting oil & gas activities to receive feedback on their experiences and satisfaction with the engagement they have with operators.
3. NZPM to widen block offer bid assessment to include external verification of an operators environmental performance and community relationships.
4. To monitor the effectiveness of a permit holders community engagement and work with the Council to promote successful community engagement practice.
5. That NZPM and Council officers continue to work closely together to manage the Districts oil & gas activities.

Cr Marie Pearce declared an interest in the following matter and took no part in the discussion or voting.
